To Whom It May Concern:

This is a letter of endorsement, support, and praise for Dallas Foster and his firm, Landscapes by Dallas Foster, Inc.

As a landscaper in Southern Indiana, he is without parallel in his artistic approach, which gives each application of his talent a distinctive natural beauty that sets it apart in the community as a work of art and beauty.

Dallas has captured the upper end private and commercial market in our area for a variety of reasons. Although there may be some pride or even snob appeal in having your landscaping Fosterized, I prefer to think of his work as an investment. The value of his work is in the duration of the beauty created and its ease and economy of maintenance.

And why is my high opinion of Dallas Foster important to you? I have a six acre garden (Wits End) at my home that is visited by 1500 people annually. Wits End is considered a destination by garden clubs, master gardener groups and other groups who desire to see a beautiful garden with the latest gardening plants and techniques. I am an advanced Master Gardener and Master Naturalist, and I am President of the Vincennes Park and Recreation Department and belong to various conservation groups whose mission is to protect our natural resources. Horticulturalists from over a dozen gardens and arboretums have visited my garden and HGTV will video our gardens this summer. Having spent considerable time and money on my five acre office and surgery center complex we lead by example on how landscaping and development should be married together. And the common thread throughout these accomplishments... the artistic talent of Dallas Foster. Without his influence, my gardens, our parks and other projects wouldn't have that extra edge, that WOW factor which distinguishes them as the pinnacle of creative beauty.

So, if you are ready to invest in an uncommon garden project that will demonstrate that you have the best, you owe it to yourself to partner with Dallas to achieve a garden that you can lose yourself in after a grueling day of dealing with life. Having your own get-away right at home where you can enjoy beauty and serenity with the best of taste is priceless. As a regional landscaper with several national awards for his designs, you will never regret your decision to let Dallas Foster create your new landscape.

If you have any questions please do not hesitate to call me at (812) 890-8064 or email me at femert@charter.net for an unqualified recommendation of Dallas and his creative landscapes.

Sincerely,

A handwritten signature in black ink, appearing to read "Frank L. Emert, Jr.", with a long horizontal flourish extending to the right.
